

STATE OF KANSAS
DEPARTMENT OF HEALTH AND ENVIRONMENT
PUBLIC NOTICE

The Kansas Department of Health and Environment (KDHE) has reviewed an application from Midwest Medical Waste, Inc., to establish and operate a solid waste processing facility for a medical waste transfer station. Midwest Medical Waste, Inc. proposes to lease an area from Bayer Construction at 120 Deep Creek Road in Riley County, near the City of Manhattan. A 12' x 20' steel container will be placed on limestone bedrock area that has been used for construction equipment/material storage. The untreated medical waste will include red bag, trace chemotherapy, and pathological waste. The waste will be bagged and held securely in boxes or totes. Within seven days, the medical waste will be transported to an autoclave or incinerator, and then disposed at permitted disposal facility.

KDHE has reviewed the application and found it to be in conformance with the state solid waste statutes and regulations.

KDHE is today providing public notice of their intent to issue a permit to Midwest Medical Waste, Inc. for the proposed solid waste processing facility described herein. A copy of the administrative record which includes the draft permit and all information regarding this permit action is available for public review from Friday, February 7, 2014, to Monday, March 10, 2014, during normal business hours, Monday through Friday at the following locations:
